

Cartridge Filter Housing

106 Design

The 106 Design can be used in a wide range of applications. We offer private label as an option for re-sellers. It can also be equipped with Neodym magnets for application where magnetic particles shall be trapped.

The 106 Design single cartridge housing is renowned for its high quality design and manufacture. With the ability to accept both standard Double Open End and Single Open End cartridges, this single stack housing with cast vee clamp closure has proved very successful in a wide variety of applications within the liquids processing industry.

The 106 Design will accept the full range of IFAB and industry standard cartridges ranging from 0.1 to 500µm with nominal lengths of 5, 10, 20 and 30".

Single Open Ended

Double Open Ended

Key Product Features

- Quick release cast Vee Clamp Closure for easy opening
