

## IFAB ABS

IFAB ABS are suitable for a wide range of applications such as beer, wine, spirits and other beverage filtration.

Fine particle removal in parts cleaning, activated carbon removal in process systems, Final filtration in varnishes and many more.

This seamless absolute filter bag is a cost-effective solution for demanding applications. The three models efficiently removes particles ranging between 5, 15, 25 & 35 µm.

This multilayer bag includes meltblown polypropylene with a maximized dirt hold capacity. And a glazed fully welded construction providing a bypass free filtration.

Ideal for absolute particle removal.

### Key Product Features

- Absolute filtration
- Highly efficient meltblown material in polypropylene with long service life.
- IFAB ABS is produced in microfiber material.
- Outer cover prevents fiber migration to reduce waste.
- High void volume means longer service life, higher contaminant loading and reduced waste loads.
- Easy change-out reduces down time.
- Non additives.
- Replacement for FSI BOS and ACCUGAF
- CE, FDA, ISO 9001: 2015, ED 2002/72/EC
